Sept Race Report:

WORCS-Rnd #7- Devore, Ca

Bakersfield, Ca- 9/27/09: H&M Motorsports returned to the famous Glen Helen track, where Haagsma would take on Rnd #7 of the World Off-Road Championship series. Davi came into round 7, knowing he had to keep a good run here in the late rounds as Motoworks's pilot, Zimmerman was ahead in points. Davi in classic Davi fashion motored his way to a first place overall and continue to let people know he is not one to be reckon with. Although Davi picked up another win, Zimmerman was able to post a 3rd place O/A and secure the 2009 Pro-Am Championship. Haagsma did finish off the year with a Production A Championship in the WORCS series and now looks to roll into Mesquite (WORCS finals) and win out the 2009 season.

"This was a bitter sweet win for us, although we didn't have enough to win the Championship, Davi continues to run strong and were looking for two in a row at Mesquite. We (H&M Motorsports) would like to congratulate Dillon Zimmerman on his 2009 Pro-Am Championship. He earned it, with his horrible accident in ITP and his continuous consistency, he deserves high props for his efforts for sure." Allan McCostlin of H&M Motorsports

ITP- Rnd #7- Surprise, Az

H&M's Davi Haagsma would come into Surprise, pushing his efforts in the Open Pro class and continue to gain this MX experience for 2009. Haagsma would not disappoint as he would post 5-2 motos and secure a 4th O/A and retain 2nd in points on the year in ITP Open Pro.

* Note from Davi Haagsma

"I really want to take time this month and thank my trainer Vernie Ogdon. That guy has been keeping me in shape all year and it shows in these WORCS 2-hr motos. Also- Elka Suspension was superb this past weekend in WORCS, soaking up all the rocks and ruts that the back end of Glen Helen has and Curtis built me a bulletproof engine. No DNF's this year related to mechanical shows how good these engines are for these high profile races" said team pilot Davi Haagsma

Haagsma proudly displays his #1 plate
