RACE REPORT

Delmont, PA: 05/30/09-

Motowork's East coast team visited Delmont, PA for Rnd #6 of the AMA/ATV Moose MX Championships this past weekend and from what they had to deal with the team dug deep and finished well above what was expected after an initial start to a bad weekend. Jeremy Lawson finished 18th in Moto 1 and 13th in Moto 2 for a 16th O/A. Lawson's teammate, Brandon Smith and former WORCS west coast guy ran a 13-17 for a 14th O/A.

#16 Jeremy Lawson at Delmont this past weekend

"We had some slight problems this weekend, both guys crashed in practice and Brandon had a cooling fan/wire harness issue in Moto 2, but they both dug down and finished respectable on the day. These two guys are hard workers and they seem to be getting better and better as each round passes. We just have to look past weekends like this and ahead for a positive outlook. All teams run into problems every now and then and this weekend happened to be ours of the year. Look for strong finishes from these two here in the second half of the season." John Leach of Motoworks

The MX boys will visit New York on June 17th for Round #7 of the AMA/ATV National tour.
