

ITP Round #8: Temecula, Ca-

Lake Elsinore, Ca- 10/28/09: Motowork's stayed at home this past weekend and what I mean by that is, a home race would see the three Motoworks Pro's take on their home track for Round 8 of the ITP Quadcross Nationals. Cahilla Creek, home to the Motoworks team would see John Natalie dominate the Open Pro with a 1-1 finish, while Frederick would round out the top 3, posting 3-4 finishes for 3rd Overall. In the premier 450 Pro Production class, Wania would best the three Motoworks pilots with a 4-1 to grab the 2nd overall on the day. Wiene would find himself collecting a 2-3 score for 3rd O/A, while Natalie and Frederick would post lower scores after Moto 1 & 2 issues. Final round will come Nov 22nd where Jeremie Warnie looks to wrap up the Open Pro & 450 Pro Production class Championships.

WORCS Round #8: Mesquite, Nv-

Lake Elsinore, Ca- 10/28/09: Motoworks had one goal in mind coming into Mesquite and win. With MCR's Beau Baron out in front in points, Josh would have to win and Baron no better than an 11th. Just when you thought things wouldn't get stranger, Baron would find himself in a mechanical problem situation and Frederick capitalize by getting out front and staying on the gas. Unfortunately for the Motowork's crew, Baron would fix the electrical problem and climb back to 10th to secure it. Meanwhile Frederick motored and did what he came to do which was win. Teammates Warnia, Weinen and Zimmerman finished respectively 3rd, 4th & 8th on the day.

Josh Frederick on his way to his season ending win at Mesquite, Nv

Chad Weinen who came out for some seat time before heading back east, would start an early gap before succumbing to the charge of his teammate Frederick, while Warnia would ride yet another successful race to 3rd. Newly crowned Pro-Am Champion Zimmerman, would turn Pro at this event which he did not dissappoint as he captured 8th O/A at the Mesquite MX facility.

"WOW- What a season, so much learning from each of us and I can't tell you how proud I am of our team and the determination behind each of these riders. We wish Josh could of had better luck behind him this weekend, but he did what he came out here to do and was get that win back after that nasty ITP crash in Glen Helen. Sometimes a rider will lose his train of thought and I'm glad Josh was able to focus today and get that monkey off his back. The whole team did a great job. Johnny and myself are already looking ahead for a very positive and successful season in 2010." Ty Zimmerman of Motoworks.
