

# RACE REPORT

**Danville, VA: 4/19/09-** Motowork's Can-AM's MX team made their way to Danville, VA this past weekend to compete at Round #4 of the Moose Racing's AMA/ATV National Championships. Motowork's off-road pilot, Jeremie Warnia joined teammates Jeremy Lawson & Brandon Smith as they would take on the classic Birch Creek Mx track. Lawson who had problems in moto 1 where he finished 12th, would rebound in moto 2 to finish an impressive 6th place as he battled his way to an 8th O/A on the day. Meanwhile teammates Warnia & Smith would finish a well deserved 14th & 17th on the weekend. Birch Creek is unfamiliar territory to west coast riders Smith & Warnia but they showed speed and willingness to battle it out with the top ATV guys to round out the day.

"We had some bad starts this weekend Lawson got tangled up with Goodman in the first corner and worked his way up to mid pack. Warnia ran a good race in moto 1 and was doing really good in moto 2 until he went over the bars. Smith had unfortunate starts in both motos and couldn't make it up, but rode strong. We will be out swinging for round 5, we continue to test and make the quad better every day." Ty Zimmerman of Motorworks

"Motowork's Jeremy Lawson railing at Birch Creek this weekend."
