St. George, UT; 08/21/09- DATS Racing made the trip to beautiful Olympia, Wa to take part in Rnd #6 of the 2009 WORCS Racing series being held at Straddleline ORV Park, just 30 miles south of the states capital. Robbie Mitchell had a less than perfect day as he was pushed wide on lap 1 out into the fluff and found a rock early on that would jam the sprocket and derailed the chain before finding his way back to the pits. The DATS crew repaired the chain and Mitchell was off and running. Mitchell being the good sport that he is and knowing he was 3 laps down, stopped and helped fellow Factory Yamaha rider Dustin Nelson pull his ATV from the waste water pits and help salvage Dustin those championship points. Johnny Shafe had a consistent day, finishing 8th O/A and securing his 2nd top 10 finish this year. DATS Racing's Pro-Am- Garrett Stucki recorded his best finish of 2009 coming through the scoring chute and grabbing the checkers for 5th O/A in the Pro-Am class.

"The Kawasaki KFX450R's did extremely well this weekend in the heavily wooded course. I continue to be very happy with the team as we have had our ups and downs. Were looking forward to Glen Helen and then our hometown race in Mesquite for the finals. We have the best sponsors out there and their support and our riders will to win, keeps this DATS team "trucking" along." Darin Snow of DATS

The DATS kids continue to run strong in the ATV mini ranks and look for a few Championships in there classes as well, come Mesquite.

Next Event: WORCS Rd #7- Devore, Ca
